Description

The Cardiofax C (ECG-3150) is a compact electrocardiograph with a 5-inch colour screen and the ECAPS 12C analysis program. The last 3 minutes of all leads are kept in the internal memory. The unit weighs 1.1 kg without mains adapter, battery and recording paper and, according to the specifications, runs for 180 minutes on battery.

Specifications

Model	ECG-3150 (Cardiofax C)
Analysis program	ECAPS 12C: approx. 200 findings with detailed analysis, based on a contour verification database of 13,000 ECGs and a rhythm verification database of 19,000 ECGs
Filtering	Advanced filter technology that removes noise with less waveform distortion
Screen	5-inch, 800 × 480, colour TFT
Memory and review	The last 3 minutes of all leads are stored in the internal memory. ECG storage: internal 800, USB flash 3,000 and more.
Number of recording channels	3
Recording examples	12-lead ECG (3 traces × 4 groups) with analysis results; 1-channel rhythm recording
Paper speed	25, 50 mm/s
Recording paper	63 mm wide
Data output	Wired via LAN or via wireless LAN; USB memory and network printer. Patient data can be downloaded via the patient query function.
Web Server	Simple solution for basic data management: view and export as PDF via a web browser (compatible browser and environment required for use within the network).

polaris.one	In combination with the ECG portfolio and the data interface and workflow tool polaris.one.
Battery	Battery life 180 minutes or more, depending on conditions; optional battery pack SB-301DC
Dimensions	260 (W) × 75 (H) × 172 (D) mm
Weight	1.1 kg (without mains adapter, battery and recording paper)
Options	Cart KD-105D/E, cable arm KH-100D, USB flash drive DTSE9G2/16GB or equivalent, wireless LAN module QI-330D, battery pack SB-301DC
